

# OPENING DOORS FOR STUDENTS

We created a hub for people in neuroscience-related fields. Through our professional network of more than 2000 people worldwide, we can guide students and academics to see beyond academic research, encouraging collaboration.

THE BRAINSTORMS SCIENTIFIC

## THE BRAINSTORMS FESTIVAL 2021

The Brainstorms Festival is an interdisciplinary neuroscience and AI online conference, where scientists, start-ups, investors, clinicians, and the curious can mingle, learn, take part in discussions, and network with the people driving neurotech and AI innovation. It is an intellectually stimulating event to motivate your students and staff.
